All parties have completed Flock Nova - Third Party Terms - Amendment .

As a Flock customer using Nova, we are reaching out to offer an additional data source capability for your agency.

By signing the attached document, you will enable access to third-party DMV data as a new source of information within your Nova platform, providing your agency with expanded data coverage to support your operations. Signing this agreement is completely optional. If your agency prefers not to add this data source, you do not need to sign—your existing Nova service will continue uninterrupted without the additional DMV data source enabled.

Please review the attached document. If you would like to enable this third-party DMV data source, simply sign and complete the DocuSign workflow. If you have any questions or would like to discuss this update further, please feel free to reach out to your Flock Safety representative.

If you are not the correct signatory, please kindly reassign within Docusign or void the envelope. If you do not wish to sign, please void the envelope to avoid reminder emails.

Thank you for your partnership!
