Thanks a ton for sharing these JD!

We'll take a look at plotting these and follow up with any questions shortly.

Thank you!
Brian

> PTZ#078 (this was un-installed this week, I do not see it on deployment tracker or any map)
> PTZ#080 (this is still installed, but per the deployment tracker is scheduled for uninstall)
>
> Next, here are proposed locations for these eight cameras. Other than #2, these poles do not appear to be on private property, but I am not sure. I know #2 is on private property. Also #4 I do not have a specific pole but there are several in that vicinity if you can check on your map and see if any would work?
>
> (1) [redacted] and move PTZ#089 to other side of pole:
> [redacted] - we would like a camera on the other side of the same pole where PTZ#089 is. But we want to cover what PTZ#089 covers, so move PTZ#089 to other side of the pole, and then add a camera to a pole in the same parking lot at [redacted].

(2) [redacted]. The grid location is private property on [redacted] and I know we are trying to avoid any other private property. I think [redacted] would allow permission, but I do not know. If not, we would seek any public pole on [redacted] which shows the parking lot of [redacted].

(3) [redacted]

(4) Any public pole in the vicinity of PTZ#080 and in vicinity of [redacted]. It appears the road there has several poles which are on public right of way?

(5) [redacted]

(6) [redacted]

(7) [redacted](camera would be on highway near [redacted] oriented across highway to [redacted])

(8) [redacted](camera would be on highway at this intersection, oriented toward [redacted])

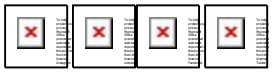

Thank you , we have other locations if these do not work,
