Good evening,

I'm attaching two separate PDF's with the locations we currently have installed and in planning for BrightRidge poles. I did remove the poles we originally had listed as BrightRidge, that turned out to be BrightSpeed (per Ken's email).

We only visually verified that these are BrightRidge poles, so it is possible that Ken does find some more that are actually BrightSpeed, since (as far as I can tell) there is no clear indicator of pole ownership.

Please let me know if you all have any questions!
Brian
