Well, it's definitely taken longer than I'd hoped. Our back end system is great at showing a lot of things, but we're finding it wasn't great about keeping track of pole ownership (at least in a format that was quick/easy to download)! We appreciate y'alls patience!

Hey Mr. Adams,

Do you have a timeline on when we will receive these coordinates. I will be out of office from June 5 – June 22 and was hoping to get this taken care of prior to my departure. Just let me know and thank you.

Major Scotty Carrier

Just following up on this to see if we have an update.

Thanks

Hi team,

See message below from DC Adams.

Can we pull a list of all installs (completed or planned) that would be on BrightRidge utility poles? I know we had sent the original list in advance, but there may be poles that we remapped to that did not get accounted for.

We need to send the full list with GPS coordinates so Major Carrier can properly permit these with BrightRidge.

Thank you,

Brian

Good morning,

We will take care of these, however, in the future, I need to reassure that we have the proper documentation for permissions prior to installing. I don't know where the breakdown is but maybe we can discuss at next meeting.

Subject: Flock

Mike,

BrightRidge says that Flock has some of their cameras on their pole that are unauthorized. Can you have Flock contact Ken Edgar (423-952-5030) with BrightRidge to get this taken care of?

Thanks,
