Afternoon sir,

Apologies on the wait for this - the team shared that they're able to go back and look at some of these, but need a couple screenshots of the alerts that you're referencing ***or*** just sending a download from the audio history page and notating which ones were incorrect.

I think the latter may provide a more comprehensive view and give them more evidence for which areas/devices are most problematic.

Thanks!
Brian

Subject: Gunshot alerts zone 1

Chief,

The multiple gunshot alerts being received I zone 1 tonight are related to Unaka Gun Club. Also, there's a train backing back on forth on Broadway loading cars or something to that effect.
