Hey, looks like this is in customer approval - sounds like he is ready for it to be installed.

Seems we swapped it from Flock pole to existing - could you reach out Cali and confirm that the pole we're suggesting will be able to capture the exchange area he's mentioned?

Good morning,

We have a PTZ planned to be installed at the front parking lot of our Municipal Building. I was wondering if I can bump that installation date up to the front of the line. The city is working on a “safe exchange” area for families to exchange children during custody swaps and want a camera overlooking that area. The area we had mapped should be sufficient to cover that area.

Thanks
