Good morning sir,

Sharing the latest updates from the past week (attached).

Highlights:

- 11 PTZ installed since 4/13/26.
- 20-30 LPR installs set for next week.
- Mobile trailer fixed.
- Having Cali match all private property permissions to ensure we've gotten them to installing status.

Impact
Thinking through measuring return on investment, do you have totals of how many stolen vehicles have been recovered by month? I know it's a simple measure, but at least one stat we can continue to monitor over the rest of the year to establish a baseline. I would be glad to send a monthly reminder to Stephanie if she has access to that info and could help with updates.

Thanks!
Brian
