The commission has now decided to delay the construction for some reason after they already painted the street and marked off the areas to be excavated. Some citizen brought up an obscure law that this did not go through the planning commission prior to going to city commission. But regardless, we needed to get it fixed and yall came through.

Deputy Chief Adams,

I am writing to follow up regarding the issues with Johnson City PD Trailer 1.

Our team will be on-site to address the trailer and ensure it has been looked at before the April 27th construction deadline.

> I don't know if you remember, but we had one of the flock trailers that broke when trying to lower it, and we had to send it back to Georgia to be repaired. Well, now the other one is stuck in the extended position and we are afraid if we try to lower it, it will also break. The problem is that it must be moved from it's location before April 27th due to roadway construction and widening project to add additional parking spaces. Anyway we could get someone to come look at it over the next week?
