Good morning. This particular complainant has called the Mayor all weekend about getting this moved. Can we get a date narrowed down on when we can make that happen? I may just have someone go out and take it down if it appears to be awhile.

Thanks

Meant to chat about this while we had you..

We can start relocation for #128 if you have the coordinates of where you want it moved to, and direction of capture.

I know next week is tight but we could find time Monday or Friday with Christine/Cali to remap. If not, early week of Aug 24 we can get some time.

If you can get the list of which ones are denied, I can have Cali put together a full comprehensive list of what still isn't installed and what needs to be moved.

Thanks!
Brian
