Description of Camera Issue
- Description: [On 09/07/2026 at 11:53 hours, I, Officer H. Medlin (936) was on patrol in the area of Liberty Bell Blvd // Sundale Rd. I observed a city-owned Flock Gunshot Detector dangling from its post. Upon inspection, it appeared that the support bracket was broken. This particular area has recently experienced vandalism of such devices. The value of the detector is $1600. There is no suspect information at the time of this report. Due to not having the proper equipment to remove the device and Public Works being off, the device was left hanging from the pole.]

Date Concern (When issue was first noticed?)
- [09/047/2026]

Is the location damaged?
- [Yes/No] YES
